FROM: Marylee M. Slosson, Chief

SUBJECT: NRC OVERTIME POLICY

Thank you for forwarding Mr. Elrod's memorandum dated August 31, 1994 concerning shift scheduling practices at the St. Lucie plant. NRR is currently evaluating the Commission's policy on nuclear plant staff working hours and is preparing a proposed revision to the policy statement. As part of this process we will consider the issues identified in Mr. Elrod's memorandum, specifically the problems associated with 16 hour shifts and the limited time available for sleep when an individual must report for duty 8 hours after a 16 hour shift.

Should you have any questions on this matter, please call me or David Desaulniers (504-1043).
