Submission of the Revised Draft Description of the Proposed Action and Alternatives (DOPAA) for the Shieldalloy Metallurgical Corporation Facility at Cambridge, Ohio

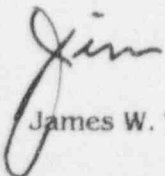

Dear Bob:

Enclosed is a copy of the revised draft DOPAA for your use.

The description of the proposed action and alternatives presented in the revised draft DOPAA is based upon the information available to us. However, there is inadequate information on two alternatives: onsite dilution processing and disposal and onsite segregation processing with offsite disposal. For the revised draft DOPAA, these alternatives have been assumed to be technically infeasible and eliminated from detailed study. Additional information has been requested to determine if these alternatives should be considered in greater detail.

I sincerely regret any inconvenience the late delivery of this document may have caused you. If you have any questions, please call me at (615) 574-6261 or Lance McCold at (615) 574-5216.

Sincerely,

James W. Terry
