

## FOIA/PA REQUEST

From:	Lou Wagner <lwagner@msrad3.med.uth.tmc.edu>	Case No:	96-516
To:	TWD2.TWP6(rapl)	Date Rec'd:	12-9-96
Date:	9 Dec 1996 1:20pm	Action Off:	
Subject:	FOIA information	Related Case:	

Dear Mr. Powell:

I would like to request some information from the NRC under the Freedom of Information Act. The specific material relates to a report to the NRC about the unintended exposure of a pregnant patient to I-131 for medical purposes. The report was received by the NRC on Sept. 1, 1992. I have previously asked Sam Jones of the NRC for the NRC's data on this incident and he informed me that I would have to file for this request with you.

I am a professor in the Department of Radiology at the University of Texas Houston Medical School. I would like to include this data as a case report in my book "Exposure of the Pregnant Patient to Diagnostic Radiation: A Guide to Medical Management". The book is due for publication next year. All names related to the case will be kept anonymous.

Please forward the requested information to me at the address listed below.
