Gentlemen:

Thank you for your letter dated July 24, 1985, informing us of the steps you have taken to correct the noncompliance identified in our letter dated June 28, 1985. During a telephone conversation between Ms. Mary Worth and Mr. W. P. Reichhold on August 2, 1985, it is our understanding that your corrective actions will include a quarterly audit to review the program for compliance with NRC requirements. The results of the audit will be reviewed at the Quarterly Radiation Safety Committee meetings. With respect to Item 1, while your letter states you have filed an application for an appropriate amendment to achieve corrective action for the item of noncompliance, it should be understood that no activity is in accord with NRC regulatory requirements unless and until it is specifically authorized in an NRC license. Steps should be taken to ensure that NRC-licensed materials are hereafter possessed and used only as authorized by your license. We will examine this matter during a future inspection.

If your understanding differs from the above, please contact Mr. W. P. Reichhold at 312-790-5500.

Your cooperation with us is appreciated.

Sincerely,

D. J. Sreniawski, Chief
