SUBJECT: UPDATED REPLY TO NOTICE OF VIOLATION  
(NRC Inspection Report No. 030-32202/95-02)

Dear Mr. Hanges:

We have received your December 24, 1996 letter informing us of your inability to have your radiographers certified by American Society for Nondestructive Testing. Your letter, however, indicated that you did complete the 40-hour Radiation Safety Training Refresher as previously noted in your letter of November 15, 1995.

Because implementation of the certification appears to have been beyond your control, no additional actions are required. However, should the certification become available in the future, you are encouraged to provide it your radiographers.

The NRC appreciates your informing us of this matter.

Sincerely,

/ s /

James Lieberman, Director  
Office of Enforcement
