

NOTICE OF VIOLATION

Morgan Matroc, Inc.
Bedford, Ohio

License No. SUB-1573
Docket No. 040-09039

During an NRC inspection conducted on January 7, 1997, a violation of NRC requirements was identified. In accordance with the "General Statement of Policy and Procedure for NRC Enforcement Actions," (60 FR 34381, dated June 30, 1995 and NUREG 1600), the violation is listed below:

Condition No. 13 of License Number SUB-1573 requires that the licensee shall conduct its program in accordance with the statements, representation, and procedures contained in its application dated November 10, 1994 and letter dated June 2, 1995.

Item 9 of the above referenced license application and letter states that the monthly radiation survey will include wipes of the areas subject to contamination along with checks of radiation levels using the Victoreen Thyac III.

Contrary to the above, the licensee failed to conduct wipe tests of the areas subject to contamination during its monthly radiation survey. Specifically, during the processing of depleted uranium between September 5, 1995 to the day of the inspection January 7, 1997, the licensee failed to perform the monthly wipe tests for removable contamination.

This is a Severity Level IV violation (Supplement VI).

Pursuant to the provisions of 10 CFR 2.201, Morgan Matroc, Incorporated is hereby required to submit a written statement or explanation to the U.S. Nuclear Regulatory Commission, ATTN: Document Control Desk, Washington, D.C. 20555, with a copy to the Regional Administrator, Region III, 801 Warrenville Road, Lisle, Illinois 60532-4351 within 30 days of the date of the letter transmitting this Notice of Violation (Notice). This reply should be clearly marked as a "Reply to a Notice of Violation" and should include for each violation: (1) the reason for the violation, or, if contested, the basis for disputing the violation, (2) the corrective steps that have been taken and the results achieved, (3) the corrective steps that will be taken to avoid further violations, and (4) the date when full compliance will be achieved. Your response may reference or include previous docketed correspondence, if the correspondence adequately addresses the required response. If an adequate reply is not received within the time specified in this Notice, an order or a Demand for Information may be issued as to why the license should not be modified, suspended, or revoked, or why such other action as may be proper should not be taken. Where good cause is shown, consideration will be given to extending the response time.

Because your response will be placed in the NRC Public Document Room (PDR), to the extent possible, it should not include any personal privacy, proprietary, or safeguards information so that it can be placed in the PDR without redaction. However, if you find it

necessary to include such information, you should clearly indicate the specific information that you desire not to be placed in the PDR, and provide the legal basis to support your request for withholding the information from the public.

Dated at Lisle, Illinois
this 27th day of January 1997
