RE: American Nuclear Tailings Reclamation Project  
**Notification of Radon Flux Test**

Dear Sir,

This letter is intended to satisfy the requirement of 40 CFR Subpart T § 61.23(b) that notice be given to EPA 30 days prior to a radon flux test. It is our intent to conduct the required radon flux test on the ANC tailings pond no.2 on October 15, 1996 or as soon as possible thereafter, dependent on weather conditions. The test will be conducted in accordance with the procedures specified in Method 115 of Appendix B of 40 CFR part 61. The test will be conducted by Ms. Sheryl Garling of Energy Labs in Casper.

If you have any questions, please give me a call.

Sincerely

Mark Moxley  
LQD District Supervisor
