MEMORANDUM FOR: Eleni Davis
Program Support Branch

FROM: Ralph M. Wilde
Division of Fuel Cycle and Material Safety

SUBJECT: EVALUATION OF PROPOSAL FROM ARGONNE
NATIONAL LABORATORY (FIN: A2157)

The proposal for FIN A2157 has been reviewed. The proposal is consistent with the statement of work and NMSS program needs, and the costs are reasonable. Please prepare a Form 173 to provide the balance of FY84 funding, \$70K, to Argonne National Laboratory.

Ralph M. Wilde

Mr. H. J. Rauch, Manager
Chicago Operations Office
U. S. Department of Energy
Argonne, Illinois 60439

Dear Mr. Rauch:

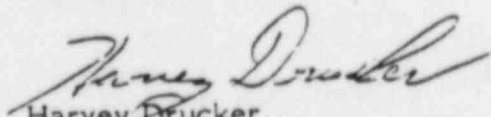

Enclosed are five copies of a revised NRC 189 entitled "Environmental Impact Statement on the Decommissioning of the Kerr-McGee West Chicago Rare Earths Facility" (NRC #50-19-01-01, ANL #8M482), by S. Y. Tsai of the Environmental Research Division.

This proposal was prepared at the request of the Nuclear Regulatory Commission, Standard Order for DOE Work dated December 1, 1983. I would appreciate your consideration of this submittal and its transmittal to:

Director, Office of Nuclear Materials Safety
and Safeguards
Attention: Program Support
U. S. Nuclear Regulatory Commission
Washington, D. C. 20555

If you have any questions regarding this 189, please do not hesitate to contact the scientist listed above, our budget coordinator (C. M. Bobula), or me.

Sincerely,

Harvey Drucker
Associate Laboratory Director
Biomedical and Environmental Research

Per conversation with Roberta Dalton, DOE Chicago
advised to have proposal evaluated. Should
be receiving letter from Operations Office
within next few days confirming formal
approval.
