Subject: Reply to a Notice of Violation

Re: License No. 06-30328-01

Dear Sir:

We are responding to the Notice of Violation noted in Docket No. 030-34209.

Violation noted "A" in your notice stated that as of Dec. 3, 1996 the gauge was not locked. This was true upon inspection, this violation was due to a piece of plastic blocking the hole for the lock; however, the problem was corrected and the lock was replaced properly in the presents of Steven Courtemanche of the NRC. Anchor Engineering confirms that this is no longer a problem and that we have been in full compliance with condition 18 of the license since Dec. 3, 1996.

Sincerely,

Mark Zessin, P.E.
President
