ST. MARY'S HOSPITAL  
Bon Secours Health System

November 13, 1996

Earl G. Wright  
U.S. Nuclear Regulatory Commission  
Region II

101 Marietta Street, Suite 2900  
Atlanta, GA 30323

Re: Transfer Request, St. Mary's Hospital,  
NRC Licenses SNM-1375 and 45-11367-02

Dear Mr. Wright:

On behalf of St. Mary's Hospital, we are writing to inform you about a transaction involving this facility, as well as a second Bon Secours facility whose Nuclear Medicine department falls under the jurisdiction and licensure of St. Mary's Hospital. The address of the facility is 5801 Breemo Road, Richmond, Virginia 23226.

Effective September 1, 1996, St. Mary's Hospital of Richmond, Incorporated, ("SMH") the owner and operator of the Hospital has a new sole member Bon Secours-Richmond Health System, Incorporated ("Bon Secours"). The members of Bon Secours are the Health Corporation of Virginia, Incorporated and Bon Secours Richmond Health Corporation. Previously, Bon Secours Richmond Health Corporation had been the sole member of SMH. This reorganization will not result in a change in the owner or operator of the Hospital or pharmacy nor in the services that the Hospital or pharmacy provides.

SMH will continue to exist as a not-for-profit corporation qualified to do business in Virginia. The transaction does not involve a transfer of SMH's assets nor is it structured as a merger.

The name of the hospital will not change at the present time. Pending SCC approval, you will be notified at a future date of any changes in order to obtain an amended license reflecting the correct institutional name.

Pursuant to the Regulations, Guidelines, and License Requirements of the Nuclear Regulatory Commission ("NRC"), notice is hereby provided about this anticipated <sup>10</sup> ~~857300~~

**FEE EXEMPT**

addition of a member. We do not believe that a change in name or a change in a member of a hospital's owner or operator requires a transfer of the license pursuant to the NRC's regulations. However, in the event that you may decide that a license transfer is required, I have enclosed the information listed as required in Faragraph 4 of the "Guidelines for Material Licensing Cases Involving Change of Ownership".

Subsequent to this addition of a member, all of the rights, privileges, immunities, powers, franchises and authority and all assets and property of every description and every interest therein, of or belonging to SMH and related to the license will continue to be vested in SMH. SMH will retain all of its liabilities and obligations and will continue to abide by all constraints, conditions, requirements, commitments and representations made in connection with the current license and operation of regulated activities at SMH. SMH represents that all surveillance items and records are current and that any and all corrective actions required by NRC inspections are complete. All records related to the license will remain at the facility. No changes in equipment, personnel, supplies, or procedures are expected to result from the addition of a member.

Also to be included in the licensure revision is Richmond Community Hospital. Please refer to the letter from Sam Lillard, Executive Vice President/Administrator of RCH, dated October 21, 1996, reflecting the changes at RCH.

Thus, please reissue the license with the new hospital name. Correspondence with respect to this acquisition and license transfer request should be returned directly to me and copied to:
