ATTN: Mr. Edward M. Chadbourne, III
President
4375 McCoy Drive
Pensacola, Florida 32503

SUBJECT: NRC INSPECTION REPORT NO. 150-00009/96-10

Dear Mr. Chadbourne:

This refers to the inspection conducted on August 8-9, 1996, at your Pensacola, Florida facility. The purpose of the inspection was to follow up on your use of byproduct material at Pensacola Naval Air Station, Florida without an NRC license. At the conclusion of the onsite inspection, the findings were discussed with Mr. Tunstall B. Perry, IV, Vice President.

Areas examined during the inspection are identified in the report. Within these areas, the inspection consisted of selective examinations of procedures and representative records and interviews with personnel.

Based on the results of this inspection, one apparent violation was identified and is being considered for enforcement action in accordance with the "General Statement of Policy and Procedures for NRC Enforcement Actions" (Enforcement Policy), NUREG-1600. The apparent violation is of concern because the failure to file for reciprocity prior to engaging in licensed activities in areas of exclusive Federal jurisdiction denies the NRC the opportunity to inspect and ensure that the Public health and safety is protected. Accordingly, no Notice of Violation is not presently being issued for this finding. In addition, please be advised that the number and characterization of the apparent violation described in the enclosed inspection report may change as a result of further NRC review.

You will be advised by separate correspondence of the results of our deliberations on this matter. No response regarding the apparent violation is required at this time.

In accordance with 10 CFR 2.790 of the NRC's "Rules of Practice," a copy of this letter, its enclosure, and any reply will be placed in the NRC Public Document Room.
