Mr. Samuel Chilk, Secretary
U.S. Nuclear Regulatory Commission
Washington, D.C. 20555

Dear Mr. Chilk:

The Government Accountability Project (GAP) and the Trial Lawyers for Public Justice (TLPJ) represent numerous citizen intervenors and several former employees of various Applicants or Licensees. In order to best protect their interests in front of the Nuclear Regulatory Commission we have prepared public comments on the recently enacted Interim Rule Change to the Sunshine Act. Our comments are attached to this letter. We have also proposed an amendment to the interim rule which is submitted separately.

Our offices were unable to complete the preparation of our comments during the allotted time period because of the previously scheduled litigation and conference schedules of the attorneys and staff preparing these comments. As you know GAP and TLPJ are public interest law firms with extensive NRC-related dockets. We hope that the Commission will take these comments under consideration, in spite of the delay in their submission.

Any correspondence regarding these comments should be forwarded to Billie Pirner Garde at the above address.

Sincerely,

Billie Pirner Garde
