Amendment to Material Licence.

Attention: Materials Branch

To Whom it May Concern,

Due to remodeling of our facility we need to relocate our nuclear density gauge storage location. We would also like to request a change in the leak test requirement from our current six month interval to an annual test. This letter will serve as our request to amend our license to reflect the new storage location and leak test interval. This will amend subpart 3 of Item # 9, and item 12.A Leak Test Intervals in our current license.

Find enclosed a copy of the following items:

1. Copy of the new storage location map.
2. Current leak tests for our gauges. (4 ea)
3. Check for amendment fees.

If you have any question or comment regarding this change do not hesitate to contact me.

Sincerely,

NOVA GROUP INC.
