Cleveland, OH 44108

SUBJECT: SCOPING SURVEY, FORMER TRW, INC., AT SITE 12735 KIRBY ROAD,
CLEVELAND, OHIO (INSPECTION REPORT NO. 040-04378/96001(DNMS))

Dear Mr. Rowe:

This refers to the scoping survey conducted July 25, 1996, at the Bennett Industries facility located at 12735 Kirby Road, Cleveland, Ohio. This includes a telephone conversation held with you and Mr. Kulzer of my staff on August 21, 1996, to discuss the laboratory results of the wipe samples taken.

The enclosed copy of our inspection report identifies the areas surveyed and examined during the inspection. The inspection consisted of observations and independent measurements.

During the inspection, surveys were conducted and samples were collected for laboratory analysis to determine the extent of residual thorium contamination from formerly licensed activities at this site. Residual levels of thorium were not identified in excess of NRC's unrestricted release guidelines. The guidelines are found in the NRC's, *Guidelines for Decontamination of Facilities and Equipment prior to Release for Unrestricted Use or Termination of Licenses for Byproduct, Source, or Special Nuclear Material*. Consequently, we have no further regulatory concerns regarding this facility.

In accordance with 10 CFR 2.790 of the NRC's "Rules of Practice," a copy of this letter and its enclosure will be placed in the NRC Public Document Room.
