ATOMIC ENERGY COMMISSION

Eaton Plaza 2929 W. Indian School Road Phoenix, Arizona 85017

Phone: (602) 271-4845

April 30, 1979

Mr. Thomas A. Clary  
Pinal Minerals & Mining, Ltd.  
P.O. Box 1010  
Miami, Arizona 85539

Dear Mr. Clary:

This letter is with reference to yours of April 30, 1979, regarding your company's operational plans, and my letter of April 24, 1979.

Now that we know that your company will not be performing in situ leaching without submitting a report and awaiting approval, we can begin to review your company's application for renewal using the Environmental Report submitted on May 26, 1978.

In situ leaching authority would be deleted from the license upon issuance of the renewal.

Arizona Atomic Energy Commission Regulation R12-1-315.B is applicable with this new understanding, with the application being in proper form for evaluation.

Sincerely,

A handwritten signature in cursive script, appearing to read "Lynn FitzRandolph".

Lynn FitzRandolph  
Supervisor, Radioactive Materials
