MEMORANDUM FOR: Richard E. Cunningham, Director  
 Division of Fuel Cycle and Material Safety

FROM: R. S. Brown, Jr., Director  
 Planning and Program Analysis Staff, NMSS

SUBJECT: EVALUATION OF PROPOSAL FROM ARGONNE NATIONAL LABORATORY  
 (FIN: A2157)

The enclosed proposal has been received in response to SOEW 50-85-71 dated 3/29/85.

Please review the proposal for acceptability. The following are factors which should be considered in your evaluation. Is the technical work proposed consistent with NMSS program needs? Are schedules and reporting requirements acceptable and set forth clearly in the proposal? Are there omissions or deficiencies in the proposal which conflict with our program needs or with our statement of work in the original request for proposal? Do proposed costs appear reasonable in all categories? Has your Division budgeted for sufficient funding in the current and/or future fiscal years? Please address these and any other issues which may require revisions to either the proposal or to the current statement of work.

Please advise the Planning and Program Analysis Staff/Eleni Davis, (ext. 74072) of your evaluation by return memo by 5/24/85. If you would like assistance in evaluating this proposal, please do not hesitate to call.

Original Signed by  
 R. S. Brown, Jr.
