MEMORANDUM FOR: Richard E. Cunningham, Director  
Division of Fuel Cycle and Material Safety

FROM: R. S. Brown, Jr.  
Assistant to the Director  
and Chief,  
Program Support Branch, NMSS

SUBJECT: EVALUATION OF PROPOSAL FROM D.O.E. - Argonne National  
Laboratories (FIN A-2157)

The enclosed proposal has been received in response to: our request for Form  
189 in SOEW #50-83-01, dated 10/1/82

Please review the proposal for acceptability. The following are factors which should be considered in your evaluation. Is the technical work proposed consistent with NMSS program needs? Are schedules and reporting requirements acceptable and set forth clearly in the proposal? Are there omissions or deficiencies in the proposal which conflict with our program needs or with out statement of work in the original request for proposal? Do proposed costs appear reasonable in all categories? Has your Division budgeted for sufficient funding in the current and or future fiscal years? Please address these and any other issues which may require revisions to either the proposal or to the current statement of work.

Please advise Program Support/D. M. Umbel (Extension 74072) of your evaluation by return memo by December 6, 1982. If you would like assistance in evaluating this proposal, please do not hesitate to call.
