SUBJECT: EVALUATION OF PROPOSAL FROM DOE - ANL FIN A-2157

We have reviewed the November 12, 1982 ANL proposal for additional services related to completion of the Final Environmental Statement for decommissioning of the Kerr-McGee Rare Earths Facility. We find the proposal to be acceptable. However, the ANL proposal does not correspond in work scope exactly with our statement of work. The omission is in providing expert testimony for any future hearing. ANL cannot, at this time, predict the timing of any potential future hearing or predict or quote costs for such a hearing. We find this omission to be reasonable and acceptable.

The costs for the proposed work appear to be reasonable. We have budgeted \$50K for this work in FY83. A fund transfer from that provides the additional \$18.2K requested for FY83 is attached. Additional funding may be required in FY83 if a hearing is held and expert testimony from ANL is required.

A handwritten signature in cursive script, reading "William A. Nixon", is positioned above the typed name.
