CHEM-NUCLEAR SERVICES, INC.
FROESER, WASHINGTON - LICENSE NO. 44-13536-1
REQUEST FOR ASSIST INSPECTION

We would like your assistance in inspecting the subject licensee's records located at Columbia, South Carolina, with respect to radioactive waste transfers through non-agreement states.

According to the corporation's RSO, Dr. G. Farmer, who is located in Portland, Oregon, no licensed activities have been conducted in Region V. Thus far, all AEC licensed work has involved waste picking at the Naval Yard in Norfolk, Virginia, for delivery to a state licensed firm in Tennessee for storage. The licensee has no burial site as yet.

The manager of the eastern operation is:

Dr. Henry Schultz (P. O. Box 6336)
3101 Carlisle Street
Columbia, South Carolina 29206
Telephone No: 803-252-1154

According to Dr. Farmer, the records are maintained in Columbia and a duplicate set is maintained at the proposed burial site office located in Barnwell, South Carolina. The contact there is:

Mr. Clifford Powers (Assistant RSO)
P. O. Box 28
Barnwell, South Carolina
Telephone No: 803-259-5983

Dr. Farmer suggested that Dr. Schultz be contacted for any inspection by the AEC in the eastern division.
