VIA FACSIMILE AND FIRST CLASS MAIL

Mr. James Taylor
Executive Director of Operations
U.S. Nuclear Regulatory Commission
11555 Rockville Pike
Rockville, MD 20852-2738

Dear Mr. Taylor:

The non-operating owners of Millstone 3, including those listed below, have decided that it is advisable for them to increase their monitoring of activities associated with Millstone 3 and its restart.

As such, through Egan & Associates, P.C., the Millstone 3 non-operating owners Common Counsel, the non-operating owners have enlisted the services of a team of reputable outside technical and regulatory experts to assist them. At this time, their team is composed of Mr. Harold Denton, Mr. Jack DeVine, Mr. Joseph Gallo and Mr. Steve Allen, a group which represents a diverse range of regulatory and nuclear operations expertise. On behalf of the Millstone 3 non-operating owners, some members of the expert team will soon be contacting NRC personnel seeking information relevant to their evaluation of Millstone 3. The non-operating owners wanted to apprise you of these developments before such contacts are made. The team will do everything possible not to divert NRC's efforts, or those of NU, from focusing on the restart of Millstone 3.

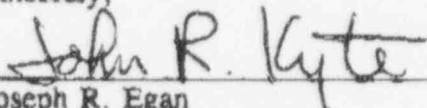

In addition, at the request of the non-operating owners of Millstone 3, I ask that you have Egan & Associates, P.C., placed on all NRC Service Lists related to Millstone Unit 3. Such correspondence should be sent to:

Joseph R. Egan, Esq.
Egan & Associates, P.C.
