RE: Docket No. 40-8681 - NRC License SUA-1358

Gentlemen:

The above mentioned Source Material License requires an annual accounting of changes in land use. For purposes of this report any change in the status of grazing, agricultural lands, residences, water wells or any other land usage within a five (5) mile radius of the mill, since August 1984, will be discussed.

The body of the report follows:

- 1) Cattle grazing around the mill boundaries continues; however the number of cattle and length of time spent grazing have decreased this year.
- 2) The Plateau Ore Buying Station is working on decommissioning its site approximately 3 miles northeast of the mill. A description of the approximate location is N 1/2 of the NW 1/4 of Section 15, T. 37 S., R. 22 E., Salt Lake Meridian.
- 3) Since the last report a trailer was moved next to the Shirttail general store. For approximately 9 months the trailer was occupied as living quarters and a stable was built for three (3) horses. Shirttail is located 3 miles northeast of the mill. A description of the approximate location is S 1/2 of the SW 1/4 of Section 23, T. 38 S., R. 22 E., Salt Lake Meridian.

FEE EXEMPT

00779

- 4) A convenience store was built on the White Mesa Indian Reservation about 5 miles south-southeast of the mill site. A description of the approximate location is S 1/2 of the SW 1/4 of Section 23, T. 38 S., R. 22 E., Salt Lake Meridian.
- 5) Except for the above mentioned changes, use remains essentially as previously reported.

We trust this report will satisfy the requirements of the Source Material License.
