Dr. Thomas E. Murley, Administrator
U.S. Nuclear Regulatory Commission
Office of Inspection and Enforcement
Region I
631 Park Avenue
King of Prussia, PA 19406

Dear Dr. Murley:

Enclosed please find page changes to Chapter 1 (Organization), and Chapter 4 (Measurements), of the UNC Naval Products Fundamental Nuclear Material Control (FNMC) Plan. Changes are noted by vertical line in left margin.

These changes are being made to reflect the reorganization of the NMC Department due to the reduction in force of July 18, 1985, and the annual audit of the SNM Measurements Program.

I do not consider these changes to decrease the effectiveness of the UNC Naval Products Fundamental Nuclear Material Control Plan and are reported herewith in accordance with the provisions of 10 CFR 70.32 (c). I also consider this letter and the enclosed plan pages to contain information regarding our control and accounting procedures for safeguarding SSNM and, as specified in 10 CFR 2.790 (d) are not to be placed in the public document room.

Please contact me should you have questions or comments concerning this request.

Sincerely yours,
UNC Naval Products

T. J. Collopy
T. J. Collopy,

Nuclear Material Manager
