Docket 50-293

Subject: NRC Request for Additional Information Relative to GL83-28,
Item 1.1 (Post-Trip Review) dated June 17, 1985

Dear Sir:

Boston Edison Company (BECO) received the subject letter on June 21, 1985, requesting additional information on Post-Trip Review within 60 days from the receipt of NRC letter.

BECO has implemented the Post-Trip Review via the attached "Nuclear Operations Department Pilgrim Nuclear Power Station Procedure 1.3.37". This procedure was developed utilizing the guidelines of INPO Good Practice OP-211, "Post Trip Reviews," and USNRC GL83-28. We believe this procedure alleviates the NRC's concerns addressed in the subject letter.

This letter completes our response to GL83-28, Item 1.1. Should you desire any further information on our response, please contact us.

Very truly yours,

W D Harrington
