January 27, 1997

To: Document Control Desk

The attached document, Toledo Edison Serial Letter Number 2393, was inadvertently submitted to the NRC without a date typed on the coverpage. The signature date for Serial 2393 was January 20, 1997, and this date was indicated on the Oath and Affirmation page. However, Toledo Edison has now also added the date of January 20, 1997 to the coverpage and is providing another copy as attached. We regret any inconvenience this may have caused you.

Very truly yours,

Dale R. Wuokko  
Supervisor, Nuclear Regulatory Affairs
