Docket Nos. 50-282	License Nos. DPR-42
50-306	DPR-60
72-10	SNM-2506

**Change to NRC Distribution Lists for
the Prairie Island Nuclear Generating Plant**

Northern States Power (NSP) requests that distribution and service lists utilized by NRC personnel for transmittal of correspondence to NSP be modified. Due to organization changes, the position of Site General Manager at the Prairie Island Nuclear Generating Plant has been eliminated and the duties previously assigned to this position have been transferred to the Plant Manager.

To ensure proper dissemination of the necessary information internal to NSP, please replace "Site General Manager" with "Plant Manager" on all applicable NRC distribution and service lists pertaining to the Prairie Island Nuclear Generating Plant and Independent Spent Fuel Storage Installation. Only the addressee need be changed, no change in the street address is required.

We appreciate your assistance in this manner. This letter contains no new NRC commitments. Please contact Gene Eckholt (612-388-1121) if you require any additional information.
