September 20, 1996

Ms Diane Heim
U.S. Nuclear Regulatory Commission
Region II
101 Marietta Street, N.W., Suite 2900
Atlanta GA 30323-0199

NRC License #45-17151-01

Dear Ms Heim:

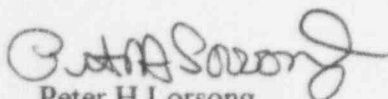

As per our telephone conversation, September 19, 1996, I am writing to inform you of Material Testing Laboratories Inc current status.

On June 18, 1993 Material Testing Laboratories Inc was purchased by Eastern Computers Incorporated and at that time we were made a *subsidiary* of Eastern Computers Inc. Currently Material Testing Laboratories Inc has changed from a subsidiary to a *division* of Eastern Computers Inc. Material Testing Laboratories Inc will continue to trade as such. There has been no address or name change, personnel remain the same as does all operating conditions of our license.

Please advise if status changing from a *subsidiary* of to a *division* of Eastern Computers Inc constitutes an amendment to current NRC license.

If further information is required please feel free to call me at (757)855-1971 or I may be reached by fax at (757)857-4219.

Sincerely,

Peter H Lorsche
