

August 9, 1985

Dr. Richard E. Webb
4821 New England Lane
Suite 29
Sylvania, Ohio 43560

Dear Dr. Webb:

SUBJECT: JUNE 9 EVENT AT DAVIS-BESSE

As indicated in the July 18, 1985 letter from Herzel Plaine, the June 9 event at Davis-Besse involving the loss of feedwater was investigated by the NRC staff. A copy of the Team's report of this investigation is enclosed for your information. The results of this investigation, as well as other information, will be used as input to future decisions regarding the possible restart of this reactor.

Although the Team's report is comprehensive and detailed, there is extensive supporting technical information which served as input to the Team. This information is available to you in the local Public Document Room for the Davis-Besse Plant.

I trust that the report and supporting information will adequately address your concerns.

Sincerely,

Original Signed by
C. J. Heltemes, Jr.
