This is in response to Leiberman's letter. You can see we are not going to let this one go.

These phony son of a bitches. Congress and the House designed this system which Justis gets lost in the paperwork. Special interest getting there money worth. Where the power of the government turns against its people. We have an idea of how the blacks felt before they could vote- 1950's. Luckily their corrupt ideology is distorting their ability to maintain the plants and equipment which might lead to a public backlash hopefully before a meltdown. Again imagine having a winter blackout. I think we are just beginning to see lots of grid problems. mike
