**ATTENTION:** Document Control Desk

**SUBJECT:** Calvert Cliffs Nuclear Power Plant  
Unit Nos. 1 & 2; Docket Nos. 50-317 & 50-318  
Supplement to License Amendment Request; Conversion of the Calvert Cliffs  
Units 1 and 2 Technical Specifications to the Improved Standard Technical  
Specifications, NUREG-1432

- REFERENCES:**
- (a) Letter from Mr. C. H. Cruse (BGE) to NRC Document Control Desk, dated December 4, 1996, License Amendment Request; Conversion of the Calvert Cliffs Units 1 and 2 Technical Specifications to the Improved Standard Technical Specifications, NUREG-1432
  - (b) Letter from Mr. C. I. Grimes (NRC) to Mr. J. Davis (Nuclear Energy Institute), dated December 13, 1996

In Reference (a), Baltimore Gas and Electric Company submitted a license amendment request to convert the Calvert Cliffs Units 1 and 2 Technical Specifications to be generally consistent with NUREG-1432, Revision 1, "Standard Technical Specifications for Combustion Engineering Plants." Our submittal followed the guidance in the Nuclear Energy Institute's NEI 96-06, Improved Technical Specifications Conversion Guidance, dated August 1996.

In Reference (b), the Nuclear Regulatory Commission (NRC) provided additional suggestions for preparing better applications for conversion to the Improved Standard Technical Specifications to facilitate the NRC staff's review process. One of those suggestions was to provide a copy of the mark-up of the current Technical Specifications in current Technical Specifications order. In accordance with previous discussions with the NRC, NEI 96-06, and industry practice, Baltimore Gas and Electric Company provided the current Technical Specifications mark-up in Improved Technical Specifications order.

In order to facilitate a timely and accurate review of our license amendment request, enclosed are two additional volumes to supplement Reference (a). These volumes contain the Units 1 and 2 current Technical Specifications mark-up in current Technical Specifications order.

These volumes contain no new information. The new volumes contain copies of the current Technical Specifications mark-up pages that were supplied in Reference (a), arranged in current Technical Specifications order. Therefore, this change has no effect on the No Significant Hazards Consideration conclusions contained in the original submittal.

Should you have questions regarding this supplementary information, please contact Mr. Brian Mann at (410) 495-6517.

Very truly yours,

STATE OF MARYLAND :  
: TO WIT:  
COUNTY OF CALVERT :

I hereby certify that on the 3rd day of February, 19 97, before me, the subscriber, a Notary Public of the State of Maryland in and for Calvert County, personally appeared Charles H. Cruse, being duly sworn, and states that he is Vice President of the Baltimore Gas and Electric Company, a corporation of the State of Maryland; that he provides the foregoing response for the purposes therein set forth; that the statements made are true and correct to the best of his knowledge, information, and belief; and that he was authorized to provide the response on behalf of said Corporation.
