Mr. L. J. Callan
NRC Regional Administrator - Region IV
United States Nuclear Regulatory Commission
611 Ryan Plaza Drive, Suite 400
Arlington, TX 76011-8064

RE: Compliance Audit and Response -Order Modifying License - Docket No. 030-20836 (EA 95-063)
NRC Materials License 25-21479-01

Mr. Callan:

In compliance with the above referenced order, an audit was conducted by Mr. Kirit Smart July 27-31, 1996 at 60 Clark Street, Ft. Shaw, 1739 N. Frontage Road, Billings, along with observations of Radiographers at field locations

Enclosed is a copy the following documents sent to us by Mr. Smart
October 2, 1996 Letter
6 page Audit Report
16 page Audit Checklist

In Reference to Checklist item No. 6 (also Audit Report page 6, 2), a control badge has been ordered for the Billings office

Based on the findings of this and the prior audit conducted by Mr. Smart and that of the NRC, Mattingly Testing has shown that it is meeting NRC requirements in its Radiation Safety Program and have every intention of continuing to operate in the safest manner possible. We would again like to request that the NRC Regional Administrator rescind the Order requiring additional independent audits. We feel the auditor has been very knowledgeable and appreciate all his input. However we must request relief from the financial burden of these audits. And would ask that the NRC give serious consideration to the overall safe operation record that this company has had, along with added procedures which further assure safe operation practices.

Sincerely,
MATTINGLY TESTING SERVICES, INC.
