Office of Compliance
Center for Devices
and Radiological Health
U.S. Department of Health and Human Services
Food and Drug Administration
2098 Gaither Road
Rockville, MD 20850

February 4, 1997

Dear Mr. Frappalo:

This letter is to confirm that the U.S. Nuclear Regulatory Commission intends to renew the Memorandum of Understanding (MOU) between itself and the U.S. Department of Health and Human Services, Food and Drug Administration (FDA). At the third annual meeting under the MOU, held August 8, 1996, NRC and the FDA evaluated the efficacy of the MOU and determined that it has been effective in promoting interaction and facilitating information exchange between the two agencies, thereby allowing both agencies to better accomplish their respective missions. During the meeting, the liaison officers from both the FDA and NRC agreed that the MOU should be renewed. I would appreciate confirmation, by letter, that the FDA agrees with the renewal of the MOU.

Sincerely,

Carl J. Paperiello, Director
Office of Nuclear Material Safety
and Safeguards
