Inspection Summary

Inspection on July 31 through August 1, 1985 (Report No. 50-483/85018(DRSS))

Areas Inspected: Included a review of the licensee's actions for a security event report received by NRC Region III on July 29, 1985, relating to possible tampering of a overcurrent relay for a containment spray pump. The inspection involved seven inspector hours by one NRC inspector.

Results: The licensee's investigative actions, security measures and corrective actions and conclusions relating to the incident were reviewed and considered adequate. No violations were identified.
