Mr. H. S. Price, Director  
Division of Licensing and Regulation  
Atomic Energy Commission  
Washington 25, D. C.

Dear Mr. Price:

Thank you for your courteous and comprehensive letter of March 31st. After reading it and the enclosures - particularly paragraph one page 3, it would appear that as long as this waste has to be disposed of somehow, this method seems as unharmed as any.

I do not know what the future may hold - nor does anyone else. But I do note a trend towards the sacrifice of minorities in this contamination from H-Bomb explosions, DDT spraying, etc., etc., which seems to me of rightful concern to lay individuals.

It was for this reason I wrote you as I did. And with this, suggest this particular file is now closed.

Sincerely,
