ATTN: Bennie E. Holt, Vice President  
9810 A East 58th Street  
Tulsa, Oklahoma 74145

Gentlemen:

This refers to the routine, unannounced radiation safety inspection conducted by Mr. L. Ricketson of this office on July 16, 1985, of the activities authorized by NRC Byproduct Material License 35-19815-01 and to the discussion of our findings held by the inspector with members of your staff at the conclusion of the inspection.

The inspection was an examination of the activities conducted under the license as they relate to radiation safety and to compliance with the Commission's rules and regulations, and the conditions of the license. The inspection consisted of selective examinations of procedures and representative records, interviews of personnel, independent measurements, and observations by the inspector.

During this inspection certain of your activities were found not to be conducted in full compliance with NRC requirements. Consequently, you are required to respond to this matter in writing in accordance with the provisions of Section 2.201 of the NRC "Rules of Practice," Part 2, Title 10, Code of Federal Regulations. Your response should be based on the specifics contained in the Notice of Violation enclosed with this letter.

Mr. Ricketson also reviewed the action you had taken with respect to one violation observed during our previous inspection, which was conducted August 31-September 1, 1982. He verified that the corrective action with respect to this item was implemented as stated in your reply of September 29, 1982, to our letter dated September 23, 1982.

The response directed by this letter and accompanying Notice is not subject to the clearance procedures of the Office of Management and Budget as required by the Paperwork Reduction Act of 1980, PL 96-511.
