Facilities Licensing Branch
Washington D.C. 20555

Re: Docket 50-4-3

Application is hereby made to decommission the University of California, Santa Barbara, L-77 nuclear training reactor, and to terminate the license (R-124) when the decommissioning has been accomplished. Nineteen copies of the Decommissioning Plan and Environmental Report are enclosed. The report was prepared by a contractor, Rocketdyne Division of Rockwell International Corporation, and reviewed by the appropriate agencies at UCSB. Prompt action would be appreciated so that the reactor can be decommissioned in January, 1986.

Very truly yours,

Robert J. Kroes
Vice Chancellor
Administrative Services
