

Dr. Shirley Jackson, Chairwoman
U.S. Nuclear Regulatory Commission
Washington, D.C. 20555

Jay Janney
121 Town Hall Rd.
Edgecomb, ME 04556

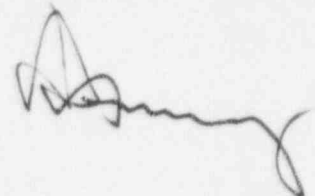

Dear Dr. Jackson,

12/31/96

I am writing to you to express genuine concern regarding the extent of actual safety at the Maine Yankee Atomic Power Station. Apparent violations of Federal Law, confusion over compliance expectations, and deeply conflicting assessments of technical data by knowledgeable persons do very little to abate this concern. This is particularly troublesome in light of the managerial track record of one of the plant's owners, Northeast Utilities.

Please do not allow what is now clearly a dangerous and embarrassing situation at best to develop into a horrible tragedy. Do not allow Maine Yankee to generate power until it is in complete compliance with NRC regulations. Thank you for your time, Dr. Jackson.

Sincerely,

A handwritten signature in black ink, appearing to read "Jay Janney", with a stylized flourish at the end.
