Medical Diagnostics, Inc.  
ATTN: Ruselle Robinson  
General Counsel  
46 Jonspin Road  
Wilmington, Massachusetts 01887-1062

SUBJECT: TRANSFER OF OWNERSHIP OF LICENSED MATERIALS PROGRAM

Dear Mr. Robinson:

The Nuclear Regulatory Commission is interested in the immediate owners of licensed materials programs because therein lies the protection of the public health and safety, and the safety of the materials and the persons occupationally exposed to ionizing radiation. Transfer of control of a licensed program is regulated under Title 10, Code of Federal Regulations Part 30, Paragraph 34(b) (10 CFR 30.34(b)).

Transfer, merge and/or sale of the ownership of the parent company of the operating company does not require advance approval of the action by the Commission. Therefore, NRC has no objections to the action proposed for the parent company of Meritus PLS, Inc. as described in your letter dated January 22, 1997.

Should you have any further questions, please call me at (404) 331-5624. My fax number is (404) 331-7437.

Sincerely,

/s/

David J. Collins, Radiation Specialist  
Materials Licensing/Inspection Branch 2  
Division of Nuclear Materials Safety
