Reference: RFP RS-ORM-85-312

Gentlemen:

Under the Freedom of Information Act, Public Laws 89-487 and 93-502, I wish to obtain the following information received and/or compiled by the U. S. Nuclear Regulatory Commission during the procurement action conducted under the above referenced RFP:

- A list of vendors submitting initial proposals on November 13, 1984.
- Section M.2 and M.3 detail evaluation points for desirable and mandatory features, respectively. Please provide me a copy of the mandatory and desirable points assigned each requirement for each vendors response, as well as the total point values assigned each vendor and the ranking based on the evaluation points received.
- Section L.9 of the RFP requires that an Operational Capabilities Demonstration be conducted. These were performed under the title Live Test Demonstration (LTD) during the month of April, 1985. Please provide me a copy of the notes, evaluation points, and final recommendations compiled by NRC and its contractor, the Maxima Corporation, present during the LTD.
- Section L.10 of the RFP outlines NRC intention to obtain the services of a commercial contractor to evaluate the DBMS systems offered. Please provide me with a copy of the commercial contractor's (assumed to be the Maxima Corporation) evaluations and recommendations reports submitted to NRC.

It is my desire to have you provide an exact copy of these with the understanding that I will pay reasonable reproduction and search costs.

If you have any questions, please call me at (703) 620-0100.

Sincerely,

*Steven B. Litzell*
