Mr. Steve Isaacs  
Nuclear Regulatory Commission  
Washington, D.C. 20555

Dear Mr. Isaacs:

I have researched further into my records and find that my request for a report on the Solid Radioactive Wastes in Bedded Salt Deposits, NAS-NRC, Nov. 1970 was done by the National Academy of Sciences and the National Research Council, not the Nuclear Regulatory Commission. This report was used as reference material for the Environmental Assessments of the three final sites, Hanford, Deaf Smith County and Swisher County. I hope that the NRC can still provide me with this material.

I have also attached hereto a list of related reports and request that you provide me with a copy of each report.

Secondly, are there reports made by the NRC on the Draft Environmental Assessments of both Texas and Nevada? If so, I hereby request copies of those reports as well. If there are any fees for any of the above reports, I ask that they be waived.

Thank you and I look forward to hearing from you.

Very truly yours,

*Michael Berry*  
Michael D. Berry
