Attention: Mr. Robert E. Brinkman
Isotopes Branch
Div. Licensing & Regulation

Gentlemen:

This is to advise that Fred Riggan of Nuclear Corporation of America removed the material held under our Byproduct Material License No. 29-7400-1 from the Middlesex County Sewerage Authority System. The whole instrument with the source is at the Denville, New Jersey, plant of the Nuclear Corporation of America.

I expect that this clarifies the disposal procedure used in the removal of this material.

Will you proceed to terminate our License No. 29-7400-1.

Very truly yours,

A. J. Popowski
