REVIEW OF CHANGES TO THE EMERGENCY PLAN FOR THE KANSAS STATE
 UNIVERSITY TRIGA MK. II NUCLEAR REACTOR FACILITY
 (TAC NO. M96534)

In response to your request of September 25, 1996, we reviewed the changes to the Emergency Plan for the Kansas State University(KSU) TRIGA Mk. II Nuclear Reactor Facility submitted by letter, dated August 15, 1996, from Richard E. Faw, Director, KSU Nuclear Reactor Facility.

As I mentioned in the memorandum to you on Iowa State, I am a member of the 50.54 Task Group which is looking into the question of handling, evaluating, and responding to 50.54 changes. The Group has recommended certain language to be included in the response to a licensee. We recommend the following language to be included in the response to Kansas State:

Our initial review of these changes indicates them to be in accordance with 10 CFR 50.54(q). Implementation of these changes will be subject to inspection to confirm that they did not decrease the overall effectiveness of your emergency plan.

In accordance with 10 CFR 2.790 of the Commission's regulations, a copy of the letter will be placed in the NRC Public Document Room.
