U.S. Nuclear Regulatory Commission  
Attn: Director, Office of Nuclear Material  
Safety and Safeguards  
Washington, DC 20555

Gentlemen:

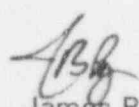

**Subject: Physical Protection Plan for Special Nuclear Material of Low Strategic Significance, EMF-538(P)**

Enclosed are five copies of revision 14 of the subject physical protection plan. This revision includes minor, denoted by vertical lines in the right margin, updates to Figures 1.1 (to add new roads and a new area facility) and 1.2 (to add the new Dry Conversion Facility, LUR/SPF Building, MERF Building, and other structures); to remove the Benton City Police from the LLEA assistance listing (the Richland Police and the Benton County Sheriff will take over their functions); and to correct "Guards" to "Watchmen" in event UP7, Table 4.2 (this change was erroneously not made in Revision 13). The revision, which does not decrease the effectiveness of the plan, is submitted under the provisions of 10 CFR 70.32(e).

The document is considered proprietary to Siemens Power Corporation (SPC) and an affidavit to that effect is included. The NRC may, however, reproduce this information for regulatory purposes.

Should you have questions, please contact me at 509-375-8663.

Very truly yours,

James B. Edgar  
Staff Engineer, Licensing

### Affidavit of Raymond E. Vaughan

I, Raymond E. Vaughan, being first duly sworn, depose and says:

1. I am Manager, Safety, Security & Licensing of Siemens Power Corporation - Nuclear Division, a corporation duly organized and existing under and by virtue of the laws of the State of Delaware, with offices at 2101 Horn Rapids Road, City of Richland, County of Benton, State of Washington, and on whose behalf I make this affidavit.
2. I am familiar with the contents of Siemens Power Corporation document EMF-538 (P), Physical Protection Plan for Special Nuclear Material of Low Strategic Significance." This document:
  - (i) has been held in confidence by Siemens Power Corporation - Nuclear Division pursuant to its internal policies, (ii) is presented to the U.S. Nuclear Regulatory Commission in confidence, and (iii) is not available from public sources.

I am authorized to make the statements that are set forth herein and in the above mentioned letter (including enclosure) on behalf of Siemens Power Corporation - Nuclear Division and the statements made in this affidavit and said letter are, to the best of my knowledge, information and belief, truthful and complete.

Siemens Power Corporation - Nuclear Division
