

UNITED STATES
NUCLEAR REGULATORY COMMISSION
REGION II
101 MARIETTA STREET, N.W.
ATLANTA, GEORGIA 30303

NOV 13 1984

MEMORANDUM FOR: Albert F. Gibson, Chief, Operations Branch
Division of Reactor Safety

THRU: Paul Bemis, Acting Director, Division of Reactor Safety

FROM: Jeff B. Lankford, Investigative Coordinator

SUBJECT: SHEARON HARRIS - ALLEGED DISCRIMINATION AND POSSIBLE HANGER
DEFICIENCIES

CASE NO.: RII-84-A-0143

The enclosed affidavit was received from a former engineer at Shearon Harris. The alleged was subsequently interviewed by the Office of Investigations and a Region II inspector to obtain additional information. This interview was transcribed by a court reporter and a copy of the transcript is enclosed. The Engineering Branch, DRS, is currently reviewing the documents to identify construction deficiencies.

As per direction of the Regional Administrator, request you review the documents to identify those concerns regarding the handling of QA documentation to determine if a systematic problem may exist. Your attention is directed to page 15 of the affidavit which discusses the use of "speed letters" in documenting nonconformances.

Request you followup and resolve the concerns identified. Please keep this office informed as to the status of this matter. If this matter is documented in an inspection report, please ensure I am listed on concurrence for that report.

Your assistance is appreciated.
