Inspection Summary

Inspection Conducted April 29-May 3, 1985 (Report 50-285/85-10)

Areas Inspected: Routine, unannounced inspection consisting of security organization, security program audit, testing and maintenance, physical barriers - protected area, security system power supply, and follow up on licensee action on previous inspection findings. The inspection involved 38 inspector-hours onsite by one NRC inspector.

Results: Within the six areas inspected, no violations or deviations were identified.
