Lisle, Illinois 60523-4351

Re: Strategic Plan (USNRC License No. 34-19089-01)

Dear Mr. Miller:

On August 29, 1995, a meeting was held at the request of Advanced Medical Systems, Inc. (AMS) to discuss an action plan for addressing outstanding issues that are of mutual interest to AMS and the USNRC in a timely fashion but within the resources currently available to AMS. In that meeting, AMS agreed to submit to the USNRC a written plan for meeting its short-term, intermediate-term and long-term objectives. That plan was, in fact, submitted on October 11, 1995.

Included in the plan was a commitment to provide quarterly updates on AMS's progress toward meeting its goals. Enclosed is Revision 1 of the "Strategic Plan for the London Road Facility", which is being submitted in response to our commitment.¹ If you have any questions or if I can provide you with additional information, please call me at (216) 692-3270. You may expect to receive Revision 2 of the plan in April of 1996.

Sincerely,

Robert Meschter, R.S.O.

¹ AMS is in receipt of your letter dated December 6, 1995 wherein comments on Revision 0 of the "Strategic Plan for the London Road Facility" are provided. You will note, during review of Revision 1, that certain of those comments have already been incorporated. The remainder will be addressed in our formal response to the December 6th letter, which will be submitted within 30 days after AMS receives the structural integrity report from USNRC Headquarters.
