Mr. Robert Niedzielski
Supervisor - Operator Training
Baltimore Gas & Electric Company
Calvert Cliffs Nuclear Power Plant
1650 Calvert Cliffs Parkway
Lusby, MD 20657-4702

Dear Mr. Niedzielski:

On October 9, 1996, the NRC administered a generic fundamentals examination (GFE) section of the written operator licensing examination to employees of your facility. Enclosed with this letter are copies of both forms of the examination, including answer keys, the grading results for your facility, and copies of the individual answer sheets for each of your employees. Six individuals were administered the examination and six passed the examination. Please forward the results to the individuals along with the copies of their answer sheets. A "P" in the column labeled RESULTS indicates a passing grade of 80 percent or better on the GFE. Those individuals having an "F" in the RESULTS column failed the examination.

If you have any questions concerning this examination, please contact Mr. Ivan Kingsley at 203-442-4355, Ext. 451.

Sincerely,

Original signed by

Glenn W. Meyer, Chief
Operator Licensing and
Human Performance Branch
Division of Reactor Safety
