Dear Mr. Rodriguez:

SUBJECT: RANCHO SECO NUCLEAR GENERATING STATION - GENERIC LETTER 83-28 ITEMS
3.1.1 and 3.1.2 POST-MAINTENANCE TESTING OF REACTOR TRIP SYSTEM
COMPONENTS

We have completed our review of the information you provided on
Post-Maintenance testing of reactor trip system components, Items 3.1.1 and
3.1.2 of G. L. 83-28. From our review we have concluded that:

- (a) based on your confirmation that post-maintenance operability testing is
required to be performed on safety-related equipment and that such
testing ensures the equipment is capable of performing its safety
function prior to return to service you have acceptably satisfied the
actions requested by Item 3.1.1 of Generic Letter 83-28 and
- (b) based on your completion of a review of the Owners' Group and generic
guidance on post-maintenance operability testing, and your determination
that facility procedures include the guidance necessary to demonstrate
post-maintenance operability of the reactor trip system, you have
acceptably satisfied the actions requested by Item 3.1.2 of Generic
Letter 83-28.

Our Safety Evaluation (SE) is enclosed for your information.

Sincerely,

*ORIGINAL SIGNED BY

JOHN F. STOLZ*

John F. Stolz, Chief
Operating Reactors Branch #4
