SUBJECT: NRC INTEGRATED INSPECTION REPORT NOS. 50-325/96-15, 50-324/96-15

Dear Mr. Campbell:

Thank you for your response of December 20, 1996, to our Notice of Violation issued, on November 22, 1996, concerning activities conducted at your Brunswick facility. We have evaluated your response to the violation and found that it meet the requirements of 10 CFR 2.201. However, based on my discussion with Mr. Mark Turkal on January 15, 1997, I understand that you intend to supplement your response to Violation A by further describing the root cause for the violation; the previous results that were achieved by your short-term corrective actions associated with quarterly replacement and calibration of the chlorine detectors referenced in LER 1-96-12 dated October 18, 1996; and your long-term corrective actions to resolve the repetitive detector failure problems. The supplemental response will be submitted by February 17, 1997. We will examine your supplemental response and the implementation of your corrective actions during future inspections.

We appreciate your cooperation in this matter.

Sincerely,

Original signed by M. B. Shymlock
