SUBJECT: INSPECTION NO. 030-22020/97-001

Dear Mr. Mills:

On January 15, 1997, Mr. R. H. Ladun of this office conducted a safety inspection at the above address of activities authorized by the NRC license listed below. The inspection was an examination of your licensed activities as they relate to radiation safety and to compliance with the Commission's regulations and the license conditions. The inspection consisted of observations by the inspector, interviews with personnel, and a selective examination of representative records. The findings of the inspection were discussed with you, at the conclusion of the inspection.

During the course of the inspection, it was determined that you have recently disposed of all licensed material under your control and will, request NRC termination of the license. Enclosed for your use is a NRC Form 314 (Certification of Disposition of Materials) with instructions for completion and return. If you have any questions regarding its completion please feel free to call me at (610) 337-5304.

Within the scope of this inspection, no violations were identified.

In accordance with Section 2.790 of the NRC's "Rules of Practice," Part 2, Title 10, Code of Federal Regulations, a copy of this letter will be placed in the Public Document Room. No reply to this letter is required.
