Subject: Criteria for the Preparation and Evaluation of
Radiological Emergency Response Plans and Preparedness
in Support of Nuclear Power Plants (Criteria for
Protective Action Recommendations for Severe
Accidents), Draft Report for Interim Use and Comments,
61FR43794, August 26, 1996

Duke Power Company would like to offer the following comments on
the draft report for interim use and comments, "Criteria for the
Preparation and Evaluation of Radiological Emergency Response
Plans and Preparedness in Support of Nuclear Power Plants
(Criteria for Protective Action Recommendations for Severe
Accidents)."

Duke Power supports the issuance of this revised guidance. This
document publishes as formal guidance material that the NRC's
Protective Measures Team has been using in exercises since 1992.
Duke Power had implemented similar Protective Action
Recommendations guidance in procedures in January 1994.

Yours truly,

M. S. Tuckman
